ABOUT

B.Tech Computer Engineering student with a strong foundation in software development, AI/ML, and Data Science. Skilled in building real-world applications including web platforms. Passionate about leveraging technology to solve real-life problems and contribute to impactful innovations.

CORE COMPETENCIES

- Software Development: Full Stack Web Development, Application Design
- Technical Skills: C, C++, Python, R, React, MongoDB, SQL,
- Tools: VS Code, Git, GitHub, Android Studio ,Excel, PoweBI

PROJECTS

DhartiCare – Eco Awareness Social Media App - Built a social media web application focused on promoting environmental awareness, where users can share posts related to sustainability. The platform includes a reward system that allows users to earn points by posting eco-friendly content and redeem those points for gifts, encouraging active participation and increasing social awareness.

Tech: React.js, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB , HTML, CSS

Smart IoT-Based Heart Health Monitoring System (Ongoing) - Developing a real-time heart monitoring system using IoT sensors with cloud integration, while integrating AI/ML models for early heart risk prediction and enabling remote preventive healthcare

Tech: ESP32, Python, Supabase, Scikit-learn, HTML/CSS/JS

Virtual Shoe Try-On System - Built an interactive system to overlay virtual shoes on a live camera feed, implementing foot detection using MediaPipe to accurately visualize the appearance of shoes.

Tech: Python, OpenCV, MediaPipe, TensorFlow, React

EXPERIENCE

Software Development Intern

ProgressWithAI.com - Worked on web development projects involving both frontend and backend technologies, gaining hands-on experience in building responsive and functional web applications.

EDUCATION

B.Tech in Computer Engineering SVP CET, Nagpur
Graduation: 2027

ACTIVITIES & ACHIEVEMENTS

- Semifinalists at hackathons: Navonmesh, Women in Dev, Hack A Cause.
- Built projects in domains like healthcare, women safety, and e-commerce
- Completed [certifications](#) in Cloud Computing and Power BI
- Secured 1st Rank in Semester 1 (B.Tech Computer Engineering)

STRENGTHS

Problem Solving | Adaptability | Time Management | Attention to Detail
